CHAIRMAN'S REVIEW

The directors of Burger Fuel Worldwide Limited (BFW) have reported an unaudited loss of \$219,022 for the six months to 30 September 2010.

Total unaudited BurgerFuel worldwide system sales (including Middle East) are up 12.9% to \$16,365,572 (excl GST) on the same period last year.

BFW RESULTS (UNAUDITED) FOR THE PERIOD 1 APRIL TO 30 SEPTEMBER 2010

	30 Sept 2010	30 Sept 2009
	\$000	\$000
Operating Revenue	4,201	4,192
Operating Expenses	(4,420)	(4,488)
Loss	(219)	(296)

The reported result is a 26% improvement on the same period last year and is consistent with the board's expectations and the requirement for continued investment into international expansion.

The focus in 2010 has been on streamlining operations in NZ and expanding the Middle East license opportunities with the opening of our second store in that region. The first BurgerFuel was opened in Dammam, Saudi Arabia in February 2010 and two more stores have since been announced in that region.

In Dubai UAE, BurgerFuel opened its first store in July 2010 in the popular Jumeirah Beach Resort promenade. A second store in the busy Sheikh Zayed Road has also been announced for opening in 2011.

Although system sales in NZ remain strong, no new stores opened in NZ during the period, due to the challenging and uncertain economic climate. Instead a significant focus on consolidation and further efficiencies within the existing franchise system has led to strengthening the business and will provide a solid platform for future store openings, when that time is deemed appropriate.

In Australia there was no significant change however the board is of the view that whilst operating costs in that country remain high relative to sales, no further investment would be made in Australia and that the company will commence a cost cutting programme there in the second half of the year from 1 October. This has already begun with the closure of the company owned Kings Cross store in November 2010.

As at 30 September 2010 the group had \$1,153,153 in cash with no borrowings.

Results to date for this year show that losses are reducing, international markets are growing and the company expects to reach profitability in the near future.

On behalf of the board of directors of Burger Fuel Worldwide Limited I would like to thank all of our shareholders for their ongoing support.

Yours sincerely

Peter Brook
Chairman

MANAGING DIRECTOR'S REVIEW

FIRST HALF 2010

NEW ZEALAND

Total unaudited system sales in NZ for the period 1 April to 30 September 2010 were up 1.03% to \$13,439,082 in comparison to the prior reporting period. The smaller increase was primarily due to the requirement to close and relocate the BurgerFuel Bayfair store on 11 April 2010 which reduced total system sales for the period. That store re-opened on 6th December in a more prominent position in Mt Manganui.

As mentioned by the Chairman there were no new BurgerFuel stores opened in the period in NZ. Instead focus was on the Middle East. The main reason for that is that the economic conditions remain weak and the group has instigated a policy of only opening stores with an estimated minimum turnover threshold. We need to see more evidence of a growing economy in NZ before new store openings will commence again. More resource on store openings in the Middle East is likely to accelerate revenue growth faster, for the group.

A primary focus this year has been on further system refinements to allow better scalability and in NZ on the reduction of costs for our franchisees to ensure continued positive system health.

AUSTRALIA (reported in NZ\$)

BurgerFuel Australia (unaudited) system sales for the period 1 April to 30 September 2010 decreased 6.6% to NZD \$1,111,534. The main reason for this was that no money was spent on marketing the brand in that country as it was felt that the costs relative to return were not viable. The overall cost of doing business in Australia has increased and accordingly the company has made a decision to reduce losses by firstly closing its Kings Cross store and secondly reviewing overheads and support for a single store in that country.

There are opportunities in other states of Australia and it is possible that BurgerFuel could enter new states under full territory master license agreements, at a later stage. This would eliminate the need for the group to fund store development and any potential start up losses.

INTERNATIONAL (UAE & SAUDI ARABIA)

The Middle East region has greater opportunities and potentially higher turnover stores. This is where significant focus is being applied in the 2010/2011 year.

BurgerFuel Jumeirah Beach, Dubai opened in July 2010 and is trading well. This store has now become our prominent BurgerFuel international billboard and is showcasing the brand to many international travellers and potential new country franchisees.

MANAGING DIRECTOR'S REVIEW (CONTINUED)

SUMMARY

In summary both New Zealand and the Middle East have been the main focus.

The New Zealand business has been focused on system consolidation and franchisee development within the existing business, as well as creating an international structure to support the development of new markets.

The company also sold its Five Cross Roads store in Hamilton which is in line with the strategy of not operating company owned stores. This reduces management requirements and costs. Whilst this has had the effect of reducing revenue as the individual store turnover is no longer included in company revenue, we are of the view that this will increase the speed at which BurgerFuel can reach profitability.

Our policy on expansion into new markets will only be by way of Area Development or Master License Agreements, where the licensee is responsible for all capital and operational costs.

Thank you.

Yours sincerely
